

UNITED INTERNATIONAL UNIVERSITY

COURSE SYLLABUS

1	School	School of Business and Economics (SOBE)		
2	Programme	BBA		
3	Name of Course	Marketing Analytics		
4	Course Code	MKT-4314		
5	Trimester and Year	Summer 2026		
6	Pre-requisites	Marketing Management (MKT-3336)		
7	Status	Marketing Major Elective/Business Analytics Major Elective		
8	Credit Hours	3		
9	Section	A		
10	Class Hours	Saturday/Tuesday: 08:30 AM – 09:50 AM		
11	Class Location	Room # 0227 (Computer Lab)		
12	Instructor	Muhammad Hasan Al-Mamun, Assistant Professor, School of Business and Economics, UIU		
13	Contact	Email: mamun@bus.uiu.ac.bd Cell Number: 01712-216-556		
14	Office	Room 0337 (B)		
15	Counselling Hours	Day	Time	
		Saturday/Tuesday	09:51 – 11:10 and 12:31 – 01:50	
		Sunday/Wednesday	08:30 – 09:50 and 11:11 – 12:30	
16	Text Book	Essentials of Marketing Analytics (2022) by Joseph F. Hair, Jr., Dana E. Harrison, and Haya Ajjan, <i>McGraw-Hill</i> , USA Business Analytics (2022) by Sanjiv Jaggia, Alison Kelly, Kevin Lertwachara and Leida Chen, <i>McGraw-Hill</i> , Virginia: USA.		
17	References	R for Marketing Research and Analytics, 2 nd Edition (2019) by Chris Chapman and Elea McDonnell Feit, <i>Springer</i> , Switzerland. Marketing Analytics: Statistical Tools for Marketing and Consumer Behavior Using SPSS (2022) by Jose Marcos Carvalho de Mesquita and Erik Kostelijnk, <i>Routledge</i> , New York: USA.		
18	Equipment & Aids	Bring your own books and other suggested materials to participate effectively in classroom activities. You are not allowed to borrow from others inside the classroom during class activities.		
19	Course Rationale	Today, the availability of large amounts of data, improvements in analytics techniques, substantial increases in computer processing power and affordability have made marketing analytics more practical and available to a much larger audience. Marketing analytics is one of the fastest growing fields of analytics applications. Equipped with the learning from this course, students will be able to contribute more meaningfully in the formulation of data-driven marketing tactics and strategies in today's data-rich environment.		

20	Course Description	This course will focus on marketing strategies and resource allocation decisions driven by quantitative analysis through the use of analytical software. This course intends to expose the students to practical marketing analysis through presentation of best-practices in marketing analytics methodology. The course framework is augmented by case studies that illustrate quantitative and data analysis tools needed to allocate resources, define optimal marketing mix, perform effective analysis of customers and marketing campaigns, and create high-value dashboards and metrics.					
21	Course Objectives	This course will provide the students with an introduction to marketing analytics. Here the students will learn various tools for generating marketing insights from data in such areas such as market segmentation, targeting, positioning, marketing mix decisions, and marketing performance evaluation.					
22	Learning Outcomes	After completing the course of Marketing Analytics, students should be able to: 1. Appreciate the importance of data-driven decision-making in the domain of marketing and the growing importance and marketing analytics 2. Create and examine effective and meaningful marketing databases for numerical exploration and data visualization in R programming language. 3. Generate marketing insights by using various quantitative and data-analytic tools to contribute to the practice of data-driven marketing in an ever increasing data-rich environment 4. Develop various supervised and unsupervised data mining models and deploy those developed models to uncover and solve marketing problems.					
23	Teaching Methods	Lecture, Case Studies, Project Developments					
24	Topic Outline	Class	Topics/Assignments	LOs	Reading Reference	Activities	
		1,2,3	Introduction to Marketing Analytics	1	Text-1: Ch-1	Lectures	
		4,5,6	An Overview of the R Language	2	Ref: Ch-2	Lectures Problem Solving	
		7,8,9	Exploratory Data Analysis and Visualization	2	Ref-1: Ch-3 R Class Notes	Lectures Problem Solving	
		10,11,12	Regression Analysis	3	Text-2: Ch-7 R Class Notes	Lectures Problem Solving	
			Midterm Week			Midterm Exam	
		13,14,15	Logistic Regression	3	Text-2: Ch-9 R Class Notes	Lectures Problem Solving	
		16,17,18	Introduction to Data Mining	3	Text-2: Ch-11 R Class Notes	Lectures Problem Solving	
		19,20,21	Supervised Data Mining	4	Text-2: Ch-12 R Class Notes	Lectures Problem Solving	
		22, 23, 24	Unsupervised Data Mining	4	Text-2: Ch-14 R Class Notes	Lectures Problem Solving	
25	Assessment Methods	Assessment Types			Marks		
		Attendance and Class Participation			05		
		Class Test			15		
		Assignments/Presentation			30		
		Midterm			20		
		Final Exam			30		
		Total Marks			100		
26	Grading Policy	As per the university policy					
27	Additional Course Policies	a. Class Attendance and Participation: You are expected to attend all the classes. Your on-time presence, along with the suggested study materials, will also be considered as active class participation. b. Examination: There is NO provision for make-up of missed classes and quizzes. c. Assignment and Term Project: All course related assignments are expected to be submitted on time. d. Counseling: You are expected to follow the counseling time-table as set out in this course.
