

School of Business and Economics (SoBE)
BBA and BBA in AIS Program
Course Outline of BST 1308/ QNT 1202: Business Statistics I / Basic Statistics

Part A- Introduction

Course No. / Course Code	: BST 1308/ QNT 1202
Course Title	: Business Statistics I / Basic Statistics
Course Type	: Core Business Course
Level/Term and Section	: 1 st level course
Academic Session	: Summer 2026
Course Instructor	: Sadia Binte Anwar Part-time Faculty School of Business & Economics Email: anwar.ptfaculty@bus.uiu.ac.bd Cell Number: 01962674595
Pre-requisite	: Business Mathematics I (BMT 1103)
Credit Value	: 3 Credit Hours
Contact Hours	: 3 Hours/Week
Total Marks	: 100

Course Rationale

In today's competitive global market, business managers constantly face the challenge of making sound decisions based on data and information gathered over time. Statistics provides a framework for making informed and logical choices through a data-driven decision-making process. This course introduces fundamental concepts, tools, and statistical methods essential for students in business, economics and related fields. Through this statistics course, students will gain valuable skills to analyze data, interpret results, and apply statistical reasoning to real-world business scenarios.

Course Objectives

The course is designed to provide the background of the following topics:

- Need for statistics in decision making
- Presentation of data required for processing
- Analysis and interpretation of data
- Application of probability concepts to deal with uncertainty

Course Learning Outcomes (CLOs):

1. Understand fundamental concepts of statistical tools and techniques
2. Apply a variety of statistical tools and techniques
3. Analyze data using statistical methods and techniques
4. Interpret the results obtained through the application of statistics

Mapping of CLOs with Program Learning Outcomes (PLO)

CLO/PLO	PLO1 (knowledge & understanding)	PLO2 (Critical, Prob. solving & numeracy)	PLO3 (Inter personal)	PLO4 (IT)	PLO5 (Ethical, Social & Envin.)
CLO1	x				
CLO2		x			
CLO3		x			
CLO4		x		x	

Part B: Content of the course

Class	Topics/Assignments	Learning outcomes	Reading Reference	Activities
1-2	Introduction to Statistics; Functions of Statistics, Types of Statistics, & scales of measurement (Nominal, Ordinal, Interval and Ratio)	1	Chapter 1	Practice Problem
3-4	Constructing a Frequency Distribution, Relative Frequency Distribution, Stem-and-Leaf Displays, Graphics Presentation, Frequency Distribution	1,2	Chapter 2	Practice Problem
5-6	The Population Mean, The Sample Mean, The Weighted Mean, Median, Mode, Geometric Mean, The Mean, Median, Mode of Grouped Data	2,3,4	Chapter 3	Practice Problem
7-9	Range, Mean Deviation, Variance, and Standard Deviation, Measures of Dispersion for Data Grouped into a Frequency Distribution, Interpretation and Uses of the Standard Deviation, Relative Dispersion, Skewness, Quartiles, Deciles, and Percentiles	2,3,4	Chapter 4	Practice Problem
10-12	What is Probability, Approaches to Probability, Rules of Probability	1,2	Chapter 5	Practice Problem
Mid-Term Examination				
13-16	Random Variables, The Mean, Variance, and Standard Deviation of a Probability Distribution, Binomial Probability Distribution	1,2,3	Chapter 6	Practice Problem
17-19	The Normal Distribution	2,3,4	Chapter 7	Practice Problem
20	Sampling Methods and the Central Limit Theorem	1,2,3,4	Chapter 8	Practice Problem
21-22	Basics of confidence intervals	1,2,3,4	Chapter 9	Practice Problem
23	Assignment Submission & Presentation	-	-	-
24	Review	-	-	-
Final Examination				

Part C- Assessment and Evaluation

Assessment Strategy	Details	Marks
Formative or Continuous Assessment	Attendance and class participation	5
	Quizzes or class tests	15
	Individual and group assignment (may include Project, Report, case studies) and presentation	15
Summative Assessment	Mid-term Examination	25
	Final Examination	40
Total		100

Evaluation Policy (Grading System)

Letter Grade	Marks	Grade Point		Letter Grade	Marks	Grade Point
A (Plain)	90-100	4.00		C+ (Plus)	70-73	2.33
A- (Minus)	86-89	3.67		C (Plain)	66-69	2.00
B+ (Plus)	82-85	3.33		C- (Minus)	62-65	1.67
B (Plain)	78-81	3.00		D+ (Plus)	58-61	1.33
B- (Minus)	74-77	2.67		D (Plain)	55-57	1.00
				F (Fail)	<55	0.00
				I (Incomplete)		

Make-up Procedures:

- There will be no make-up of quizzes, irrespective of reasons.
- Mid-term examination may be retaken if missed only on documented medical reasons, on a different syllabus.
- Missed assignments can be submitted with penalty in marks.
- Under the unavoidable circumstances, if any student failed to appear the final examination in the scheduled date he/she has to apply for an “I (incomplete)” grade to his/her course instructor within the scheduled date of examination. Based on the application, course instructor will assign an ‘I’, only if there are documented medical reasons, and such approval is not guaranteed. If approved, then the student needs to contact the instructor for retake and complete it within two weeks of starting of the new trimester.

Part D-Learning Resources

Textbook:

1. Statistical Techniques in Business and Economics – Douglas Lind, William Marchal, Samuel Wathen (18 th edition).
2. Statistics for Management (Seventh/ Latest Edition) -Richard I. Levin and David S. Rubin.
